CORNAVIRUS DEATH RATE FALLING!

As medicine gest more advanced, less and less people are dying.

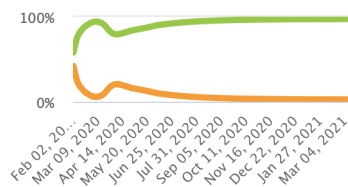

ALL CORONAVIRUS DATA IS GATHERED FROM WORLDMETER.INFO

The death rate of the COVID-19 virus is falling. Though this is expected to happen, this is good news which will likely boost some people's spirits.

At the start of the pandemic, the death rate was 100%. That was before anyone was cured. During that time, Wuhan was closing down everywhere.

Later on, specifically on February 02, 2020, the death rate went way down, down 42.0%. This number kept falling and falling, and was at 5.64% on March 07 2020, until it started rising again. This is probably because around that time, a lot more people got sick. On March 7, there were about 51,000 active cases in the world. The day before there was only about 45,000.

The number of the death rate kept rising and rising (again) until it stopped at April 7, 2020, at 20.71% death rate. The cases on that day was about 1,100,000 cases. We are not sure why this happened, but we will keep looking and try to notify you as soon as possible.

NOW HIRING: REPORTERS

We are still looking for reporters. We have started recycling articles until we get more reporters!

Vintro's is on the lookout for more reporters. The reporters should not worry too much about spelling, since the editors will fix it.

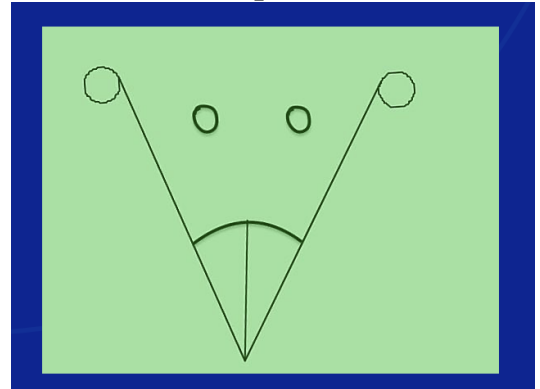

Reporters should be able to have some ability to spell or type. Preferably, the articles should be done online. Reporters are asked but not required to include a picture, maximum 2.

Before being hired, reporters will take an interview.

Here is the place you should email to be hired:

AMONG US: WHEN WILL AIRSHIP MAP RELEASE?

Our guess on when will the Airship Map release.

Among Us is a game by Innersloth, which takes place on a spaceship. The point of the game is too either eject the Imposter out, or, if you are an Imposter, kill all the Crewmates.

Anyway, Among Us has 3 maps so far, with another one announced last year. This map was set to release in 'early 2021'. When is this exactly?

It might be in between January- March, which is the first quarter of the year. It wasn't released in January, or February, so there is a chance it will be released in March.

Another date might be from January-June. This is the first half of the year, so there it still technically falls under 'early 2021'.

The final date it might be released is on Among Us' third anniversary, on June 15. This is halfway through the year, so fans might not be impressed.

This is our thoughts on when it might be released. When do you think it will be released? Email us at vintro@vintros.net with your answer for a chance to win a painting! Vintro's Club members get to enter up to 3 times.
